16											0
Total			0	0	9.7	13.5	15.5	0	12.5	16	67.2

Date	Duration (hours)	Category	Description of completed task	Challenges and/or next steps	Reflection
8/29/25	3	Other	I got a new computer so I used this time to download all the necessary softwares and usefull tools I will need for the project		
8/30/25	0.5	Other	Set up github		
9/1/25	2	Research, Training, Learning	I did some research on what exactly I want to do. Originally I wanted to do a personality test where the test help undecided majors see what major would suit them most. I know I would be able to do this so I was thinking about another idea that would definitely take longer. Its a game like wordle but instead of words, you're guessig soccer playes and who scored the goal.	Deciding what project to do	I think I will do the personality test first and then work on the other idea when I have time.
9/1/25	0.5	Other	Updated my resume		
9/3/25	3	Design	Went on figma and did rough sketches on how I want the website to look		
9/3/25	1	Research, Training, Learning	Looked at a youtube video on how to use figma https://youtu.be/ezldKx-jPag?si=LrRBuhrkBKXypA_r		
9/4/25	2	Research, Training, Learning	Researched the most popular majors and what traits they require. For example: Buisness majors are mostly required to be social.		
9/4/25	1	Design	looked for color schemes and potential images I want to use		
9/5/25	2	Research, Training, Learning	I want to use react for my project, I never used so i searched up a youtube tutorial https://youtu.be/SqcY0GfETPk?si=ldgJfzbDZtjh4tmB		
9/6/25	2	Other	Went through my notes from my Human Computer Interaction course.		I want to focus on making the interface as user friendly as I can. I hate bad ui.
9/7/25	3	Other	Survey on brightspace		
9/9/25	3	Coding	Created project folder. Set up index.html, style.css, and script.js. Linked them together		
9/10/25	2	Other	Linked Github repository to VSCode	It took way longer than it needed to, I was having trouble signing into github on vscode. Their servers were down	
9/10/25	1	Documentation	Wrote readme file		
9/11/25	1	Research, Training, Learning	Looked at popular quiz apps online like Buzzfeed since they are really popular.		After looking at their quiz I decided that my app will have more images instead of writing.
9/12/25	2	Design	Designed a landing page for the website	This is a draft, I plan on coding the landing page over the weekend	
9/12/25	1	Coding	Quickly just coded the structure (html) of the landing page. (containers)		
9/13/25	4	Coding	Wrote the code for the landing page on vscode	I had trouble with flexbox	
9/13/25	0.5	Research, Training, Learning	Watched a video on responsive grids in css		
9/16/25	1	Documentation	Wrote setup notes for the week, want to orginize my week so I know what to do when	I'm slowly getting overwhelmed with the workload with other classes.	Making a schedule may help me, we will see

[illegible]
